

FIAT Panda from 09/2003 and Punto from 09/1999
Art. No. 802 385

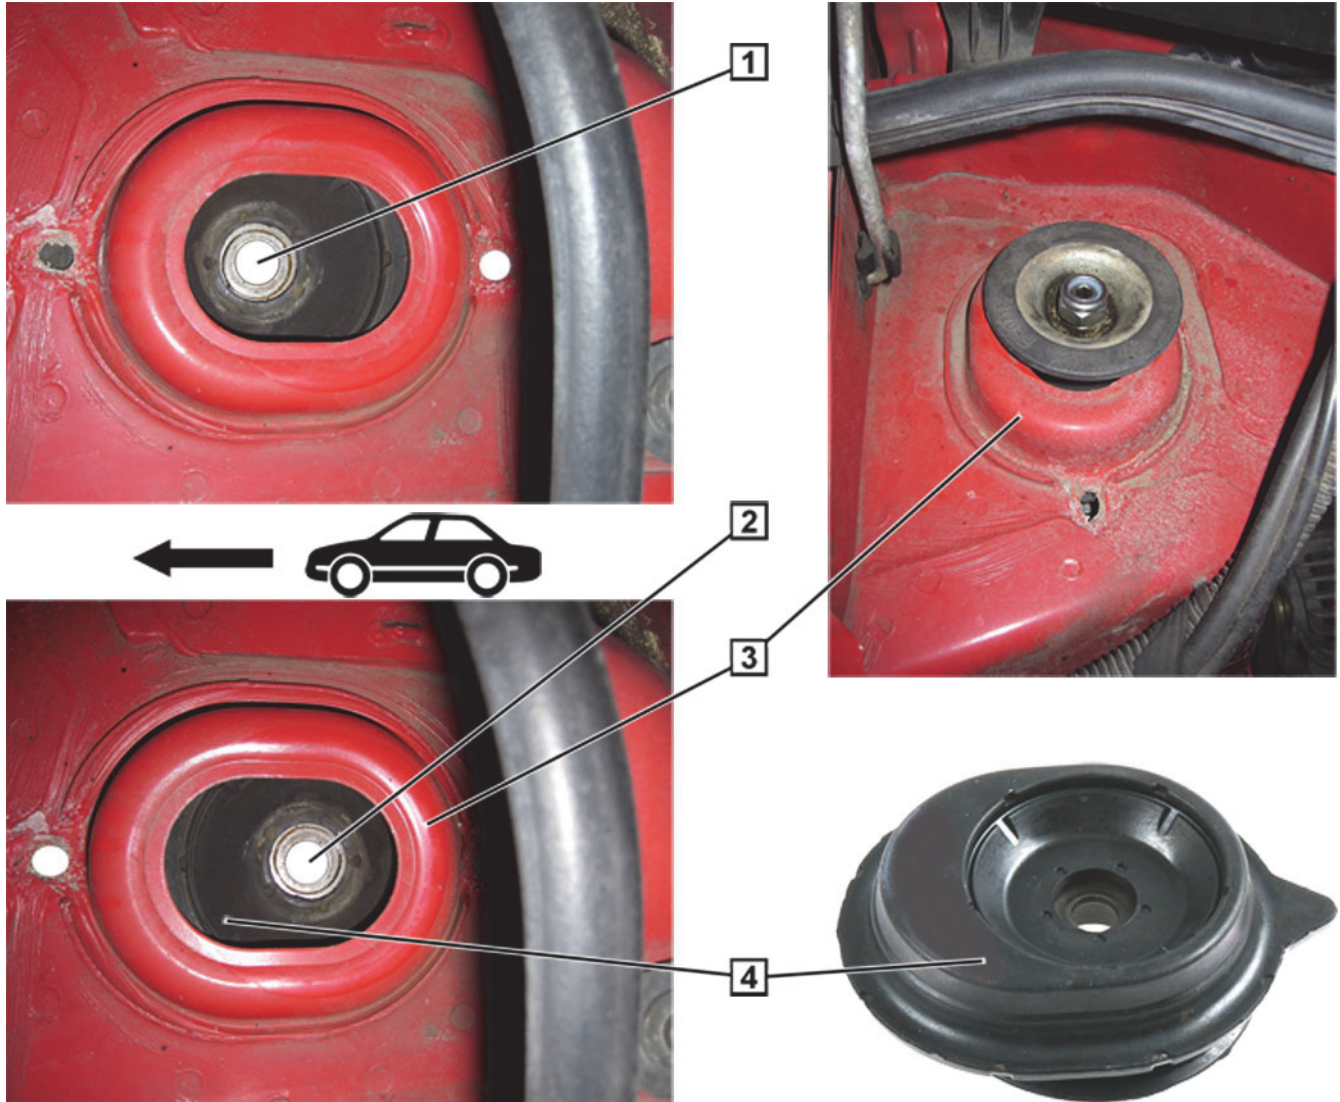

Fig. 1: Suspension strut mount in different installation positions

The suspension strut can be fitted in two different installation positions: (1) or (2). Check whether a mechanical steering system or a power steering system is fitted!

The installation position of the suspension strut mount (4) in the suspension strut tower (3) will affect the castor of the front axle:

Steering system		Suspension strut		Axle setting
Mechanical steering	➔	Installation position (1)	➔	Small castor
Power steering	➔	Installation position (2)	➔	Large castor
